

DEEPHEALTH

# DeepHealth Winter School

Organized by The DeepHealth project — H2020 grant n° 825111  
<https://deephealth-project.eu/>

Dates & Location January 24—28, 2022 / Online via Zoom

Target Audience Master's degree students in AI/ML/DS and professionals from Industry with previous knowledge on Machine Learning. Linux user experience recommended.

Summary Intense week in which the combination of lectures and lab exercises will bring participants (1) closer to the use of deep learning and computer vision in tasks related to medical imaging and other medical data, and (2) to high-performance computing to considerably reduce the running times of model-training processes.

Contents Deep Learning  
Computer Vision  
Medical Imaging  
High-Performance Computing
